Calusa Park Butterfly Garden

Calusa Park is a linear park , about 1/2 mile long, located 1441 Winterberry Drive on Marco Island. This land was deeded to the residents of Marco Island by the Mackle Brothers as a Green Belt. The City of Marco Island placed a shell path & transplanted dozens of trees along the pathway. The Calusa Garden Club of Marco Island raised monies that were donated to the City in 2009 to establish a Butterfly Garden, on the west end, with a bench & the Calusa Park Sign plantings. On the east end a Royal Poinciana Tree, berm plantings & the historical marker. Local landscapers donated trees & an additional bench for past Arbor Days. Volunteers from the Calusa Garden Club, the BAC , City staff, planted the beds and garden. The Calusa Garden Club Butterfly Garden Committee continues to maintain the garden & provide community outreach to the public. The shared use pathway, efforts of the City of Marco Island Bicycle Path Committee , allows easy access to traverse the park.

Front Bench

Coontie
Periwinkle
Scorpion Tail
Watermelon Jatropa
Cassia surattensis
Panama Rose
Yellow Lantana
Buttonwood

Inside Butterfly Garden Bed

Beach Sunflower
Firebush
